PROFESSIONAL SUMMARY

Frontend Developer with 4.5+ years of experience building scalable, high-performance web applications using React.js, TypeScript, JavaScript (ES6+), Redux, HTML5, CSS3, TailwindCSS, Bootstrap, and Figma. Proven track record of 40% load time reduction and 60% process automation improvement through performance optimization and reusable component architecture. Experienced in REST API integration, state management, WCAG accessibility, and Agile cross-functional collaboration.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libs	React.js, Redux, Redux Toolkit, Context API
Styling	TailwindCSS, Bootstrap 5, Responsive Design, Figma (Design-to-Code)
Performance	Code Splitting, Lazy Loading, React.memo, useMemo, useCallback, Virtualization
Tools & Practices	Git, REST APIs, Agile/Scrum, Accessibility (WCAG/a11y), Cross-browser Testing

PROFESSIONAL EXPERIENCE

Frontend Developer

August 2021 – Present

Codeclouds IT Solutions Pvt Ltd

- Designed and delivered production-grade React.js + TypeScript applications with Redux, improving performance and UX across 10+ client projects; reduced page load times by **40%** via lazy loading, memoization, and UI virtualization.
- Built and maintained a design-system-aligned reusable component library, accelerating feature delivery and ensuring pixel-perfect UI consistency across all projects.
- Translated Figma designs into responsive, WCAG-compliant interfaces with full cross-browser support, serving diverse and accessible user bases.
- Collaborated with backend engineers, product managers, and designers in Agile/Scrum sprints to ship scalable, REST API-integrated features on schedule.

KEY PROJECTS

E-Commerce Platform

dripcartel-app.netlify.app

React.js, Redux, Context API, JavaScript (ES6+), TailwindCSS, HTML5, CSS3

- Architected a modular, scalable e-commerce frontend from scratch with centralized state management (Redux + Context API), supporting catalog, cart, checkout, and order workflows.

NetflixGPT — Streaming Web Application

netflixgpt-onlineshows.web.app

React.js, Redux Toolkit, JavaScript (ES6+), TailwindCSS, Bootstrap 5

- Built a Netflix-style streaming app with component-based architecture and Redux Toolkit, featuring fully responsive UI and dynamic data rendering across all device sizes.

Internal Process Automation Tool

Codeclouds IT Solutions

React.js, Context API, JavaScript (ES6+), HTML5, CSS3

- Built a centralized request automation system reducing manual processing time by **60%** through automated routing and real-time visibility dashboards using React and Context API.

EDUCATION

Master of Computer Applications (MCA)

2025 – Present Amity University

B.A

2021 – 2024 BBM KU

Diploma in Mechanical Engineering

2014 – 2017 SBTE, Ranchi

CERTIFICATIONS

The Complete JavaScript Course 2025 (Udemy) | Namaste React — Advanced React & Performance Patterns
